Brampton, Canada, L6T 2X2

PROFESSIONAL SUMMARY

A chemical engineer with a strong foundation in chemical laboratory analysis, research, and quality control. Adept at data analysis, problem-solving, and ensuring regulatory compliance in laboratory environments. A dedicated professional with hands-on experience as a Laboratory Analyst and University Instructor, demonstrating strong technical proficiency and attention to detail. Passionate about applying scientific expertise to support environmental biotechnology and laboratory innovations.

WORK EXPERIENCE

Product Tester

January 21, 2025 – April 23, 2025

Best Buy Canada Ltd. • Brampton, Ontario, Canada

- Conduct testing on consumer electronics to determine functionality and identify defective units.
- Assist with various technical and logistics duties as needed.

Part time Retail Sales Associate

August 2, 2024 – January 21, 2025

Bell Channels Inc. • Brampton, Ontario, Canada

- Engage with customers to understand their needs and provide tailored product or service recommendations.
- Leverage your technical knowledge and sales experience to drive customer satisfaction.

Laboratory Analyst 1

January 8, 2024 – May 3, 2024

Bureau Veritas • Montreal, Quebec, Canada

- Plan and organize daily tasks according to SOPs for sample preparation, lab procedures, and equipment operation.
- Maintain accuracy in tasks to minimize errors across all assigned responsibilities.
- Keep work areas clean and organized, record data for volumetric devices in the LIMS, and ensure an adequate supply of reagents.

Part Time Cashier Team Member

Sept 2023 – Dec 31, 2023

Whole Foods Market • Toronto, Ontario, Canada

- Responsible for exceptional customer service, including Point of Sale (POS) management, transaction processing, bagging, store cleanliness, and friendly, efficient service.

University Instructor

Aug 2018 – Dec 30, 2022

Adamson University • Manila, Philippines

- Supervised independent or group projects, field placements, laboratory work or hands on training.
- Taught students using a systematic plan of lectures, demonstrations, discussion groups, laboratory work, seminars, case studies and independent or group projects.

Technical Sales Specialist

Apr 2015 - Dec 2015

SGS Philippines, Inc. • Makati City, Philippines

- Maximized sales opportunities by showcasing SGS services, including Hazard Analysis and

Critical Control Points (HACCP) and Good Manufacturing Practices (GMP) certifications to both new and existing clients.

Production Supervisor

Aug 2013 - Jun 2014

Pepmaco Manufacturing Corporation • Calamba City, Philippines

- Maintains workflow by monitoring process steps, variables, control points, equipment, personnel, and resources to facilitate corrections and foster cooperation between departments.
- Ensures a safe and clean work environment by educating and directing personnel on equipment usage and policy compliance.

Lead Technician

May 2011 - Sep 2012

Sunpower Philippines Manufacturing Limited, Inc. • Sta. Rosa City, Philippines

- Conducted qualification runs in various processes, monitoring product quality with tools like Sinton and Proforma, while logging data in a Graphical User Interface.
- Logged data on Statistical Process Control charts and upheld Lean manufacturing 5S principles for the tools.

EDUCATION

Post Graduate Diploma Chemical Laboratory Analysis

May 8, 2023 – Dec 14, 2024

Lambton College • Toronto, Ontario

- Dean's Honor List: Summer 2023 and Fall 2023

Master of Science in Environmental Resources Management

Sept 2016 - Sept 2017

Chia Nan University of Pharmacy and Science • Tainan City, Taiwan

- One of 14 students to received dual degree scholarship.
- Graduated Best Foreign Student for Filipino category.
- Used High-performance Liquid Chromatography (HPLC) in quantifying N-nitrosodimethylamine (NDMA)

Master of Engineering in Chemical Engineering

Jun 2014 - Oct 2017

Adamson University • Manila, Philippines

Bachelor of Science in Chemical Engineering

Jun 2005 - May 2010

Bicol University • Legazpi City, Philippines

SKILLS

- Excellent verbal and written communication skills with attention to detail.
- A team player and strong leadership skills.
- Proficient in using MS Office.
- Driven and able to work independently in a fast-paced environment.
- Attention to detail with strong organizational and time management skills.
- Well-oriented on Canadian relevant regulatory and legislative policies and procedures.
- Knowledgeable in using Python, R and JavaScript programming language.
- Hands on experience with MP-AES, HPLC, GC, dilution, titration, wet chemistry, distillation and UV-Vis.
- Experienced in using LIMS with hands-on experience with method validation.
