

PINKY JOY JANABAN

Brampton, ON, L6V 3C7 | +1 (647) 853-1275 | janabanpinkyjoy@gmail.com | pinkyjoyjanaban.netlify.app

PROFESSIONAL SUMMARY

Metrology and Laboratory Technician with current, hands-on experience in ISO/IEC 17025 calibration and verification of measuring instruments and equipment, including environmental chambers, temperature probes, flow controllers, power supplies, and breath alcohol simulators. Skilled in developing and following calibration standards, procedures, and test methods; maintaining traceable calibration records; and troubleshooting equipment to ensure compliance with international standards, quality procedures, and customer-specific requirements. Detail-oriented and safety-conscious, with a track record supporting internal and external audits, product verification and function testing, data analysis, and day-to-day laboratory operations.

KEY SKILLS

- ISO/IEC 17025 Calibration & Verification
- Calibration Standards, Procedures & Test Method Development
- Measurement Traceability & Calibration Record Maintenance (Environmental Chambers, Temperature Probes, Flow Controllers, Power Supplies, Pressure Gauges)
- Instrument Diagnostics & Repair Support
- Product Verification & Function Testing
- Data Analysis & Reporting (Averages, SD, Trend Charts)
- Internal & External Audit Support
- Quality Management Systems (ISO 9001, ISO 17025)
- MS Excel (Intermediate) & LIMS Documentation

WORK EXPERIENCE

Metrology Laboratory Technician

Apr 2026 – Present

Alcohol Countermeasure Systems (ACS) Corporation – Toronto, ON

- Perform calibration and verification per ISO 17025 requirements on a variety of measuring instruments and equipment, ensuring they meet specified accuracy and precision requirements.
- Maintain calibration records to ensure compliance with documentation and traceability requirements in accordance with ISO 17025 standards.
- Engage in compliance with relevant quality management systems; participate in internal and external audits related to calibration activities.
- Support other departments to ensure calibration and test needs are met.
- Handle other laboratory-related tasks as directed by management.

Laboratory Technician

Aug 2025 – Dec 2025

Bureau Veritas – Mississauga, ON

- Performed Inorganic Wet Chemistry analyses following established laboratory guidelines and protocols, including sample preparation and equipment setup.
- Operated, maintained, and troubleshooted laboratory instruments including pH meters, turbidimeters, analytical balances, and pipettes to ensure accuracy of results.
- Measured pH in water and soil samples by the Ion Selective Electrode method; analyzed total and residual chlorine by HACH colorimetry and amperometry, and turbidity in water by nephelometry.
- Conducted regular quality control checks, including running standards and spike samples, to monitor the accuracy and precision of analytical results.
- Analyzed and interpreted laboratory data and prepared reports using the Laboratory Information Management System (LIMS).
- Followed SOPs (Standard Operating Procedures) to ensure accuracy, quality of work, and compliance with Ontario regulations; maintained proper documentation of results in laboratory logbooks.
- Used TAT/LIMS scheduling to organize workflow and ensure sample holding times were met.
- Adhered to strict laboratory safety guidelines, including proper handling, storage, and disposal of chemicals and hazardous waste.

Laboratory Analyst I

Jan 2024 – May 2024

Bureau Veritas – Montreal, QC

- Conducted sample preparation, inspection, and verification for over 300 environmental samples, ensuring correct labeling and traceability.
- Performed routine calibration and verification of laboratory equipment, including balances and temperature monitoring systems, to maintain accuracy and quality compliance.
- Carried out preventive maintenance checks and supported troubleshooting of measurement equipment to ensure consistent laboratory readiness.

- Supported environmental and chemical monitoring activities in line with ISO 17025 and GMP practices.
- Participated in internal audits and maintained documentation aligned with ISO 17025 requirements for traceability.
- Improved SOP adherence and reduced labeling errors through enhanced documentation control and accuracy.

University Instructor – Chemical Engineering

Aug 2018 – Dec 2022

Adamson University – Manila, Philippines

- Supervised laboratory courses, ensuring student adherence to safety protocols, equipment procedures, and documentation requirements.
- Instructed chemical analysis, sampling principles, measurement techniques, and laboratory best practices.
- Led research involving environmental monitoring, data analysis, and contaminant testing.

Production Supervisor

Aug 2013 – June 2014

Pepmaco Manufacturing Corporation – Laguna, Philippines

- Accomplished manufacturing targets by communicating job expectations and coordinating daily production activities.
- Maintained a safe and clean work environment by training and directing personnel on proper equipment use.

Lead Technician

May 2011 – Sept 2012

Sunpower Ph. Manufacturing Limited, Inc. – Laguna, Philippines

- Performed qualification runs across different production processes, using metrology tools such as Sinton and Proforma to monitor and verify product quality.
- Supported Process Engineers, Equipment Engineers, and Equipment Technicians in troubleshooting, equipment readiness, and process-improvement activities.

OTHER WORK EXPERIENCE

Product Tester

Jan 2025 – Apr 2025

Best Buy Canada – Brampton, ON

- Performed verification and function testing on 500+ consumer electronic devices, identifying a 10% defect rate in new shipments and supporting technical logistics and process documentation.

Part-Time Retail Sales Associate

Aug 2024 – Jan 2025

Bell Channels Inc. – Brampton, ON

- Recognized for maintaining high customer satisfaction scores during holiday peak hours.

Part-Time Cashier Team Member

Sept 2023 – Dec 2023

Whole Foods Market – Toronto, ON

- Managed transactions efficiently at the Point of Sale (POS) system; assisted customers with inquiries, returns, and product recommendations.

EDUCATION

Post Graduate Diploma – Chemical Laboratory Analysis

May 2023 – Dec 2024

Lambton College – Toronto, ON

- Dean's Honor List (Summer & Fall 2023)

Master of Science – Environmental Resources Management

Aug 2015 – Sep 2017

Chia Nan University of Pharmacy and Science – Taiwan

Master of Engineering – Chemical Engineering

Jun 2014 – Oct 2017

Adamson University – Manila, Philippines

Bachelor of Science – Chemical Engineering

Jun 2005 – May 2010

Bicol University – Legazpi, Philippines

CERTIFICATIONS & TRAINING

- WHMIS 2015 & Workplace Safety
- GMP Compliance Training
- Scientific Computing and Python for Data Science Certificate
- Licensed Chemical Engineer – Philippines
